Inspiration Tour

The idea for the name of our Inspiration Buggy Tour comes from the eternal inspiration - nature, which precisely in the area of the Plitvice Lakes offers insights into its inexhaustible strength and lasting value. On the tour, numerous cultural and historical traces of previous cultures and people who lived in this area are visited, giving the impression that nature overcame all this with its beauty.

Nikola Tesla, one of the greatest scientists of all time, who was born in the immediate vicinity of the Plitvice Lakes, once said that if you don't know how to do something, observe nature and you will find inspiration and answers in it. In his footsteps, on this Inspirational Buggy Tour, we will try to convey the best that this area has to offer.
